**Re: CC Docket No. 01-347 (Application by Verizon New Jersey, Inc.
for Authorization to Provide In-region, InterLATA Services in
the State of New Jersey)**

Dear Mr. Canton:

This is to memorialize the meeting held on January 30, 2002 between members of the Staff of the Federal Communications Commission and representatives of Metropolitan Telecommunications ("MetTel"). Present were Robert Tanner, Jeremy Miller, Alexis Johns, Gail Cohen, Rodney McDonald and Brent Olsen of the FCC and Elliot Goldberg and Anna Sokolin-Maimon of MetTel. At this meeting, MetTel presented some of its positions with respect to Verizon's current performance in New Jersey as it applies to the above referenced proceeding. Specifically, the discussion focused on the Operation Support System (OSS).

Attached please find the PowerPoint presentation (converted into Microsoft Word format) which was used in the meeting and which provides a comprehensive summary of the substance of that discussion. If there are any questions regarding this submission, please contact me at (212) 607-2013.

Sincerely,

Anna Sokolin-Maimon, Esq.
